

Start oral immunotherapy with the vial labeled as 2,000 PNUs first. Once you are done with this vial you will then start the vial labeled 20,000 PNUs.

Try to administer the pump the same time each day.

Please make observations and comments about the appearance of the affected skin, level of discomfort, behavior and appetite

Date	Day	VIAL 2,000 PNU	COMMENTS ON SYMPTOMS
		1 Pump Once Daily	
7/11	1	4	Gave at vet office. No adverse reactions
